Montessori

Paraprofessional

Montessori Intern
Teacher

AMS Early Childhood
Candidate 2019

I have always had a special spot in my heart for children and began to babysit for my neighbors at the age of 12. As my talents were recognized through my work at AGBMS, I was soon placed into the classroom as working as a Children's House assistant.

During my time at AGBMS, I have had the privilege of working in many different roles and capacities. Working with toddlers, my heart was captivated, and I fell in love with this age group.

Over the past two years, I have been working as a one on one assistant for the deaf services program. I was struck by this opportunity to help these deaf children and decided to become a more proficient cuer.

I am now enrolled in the AGBMS-MTTI (teacher training program) and will become a trained Montessori teacher by the summer of 2019. During the mornings, I will be with toddlers and in the afternoon, I will be investing my time for my internship by co-teaching with Ms. Oksana in extended day. Although it's a long day, I will work with the P.M. Care Coordinator to ensure lots of love and care are provided to the little ones who are in this program.

I am thrilled for all the opportunities I have been provided over the years and I'm looking forward to, much continued success with my colleagues at AGBMS!

I started my journey at AGBMS in the summer of 2013 while I was still attending Harper College. I was initially hired to be an assistant in the AM and PM Care Program.

And, so my journey began...
